If you find inaccuracies in our frequently asked questions, let us know using our contact form. What size needle should I use? The proven size of the needle depends on the fabric. For thicker tissue, you will need a needle thinker. The use of the needle is often mentioned on the packaging. It was useful (396) How long does the sewing machine needle? Tested This varies between manufacturers, but in general the needle will last about 8 hours. It may take longer for the needle to break, but before that it will become blunt and can damage the fabric. It was useful (222) Do I need to turn my singer sewing machine completely off to replace the needle? Checked You can change the needle after turning off the product with a switch. When cleaning a product, you should disconnect it from the power supply. It was useful (212) My needle continues to break, what is the reason for this? Tested There may be different reasons for this. The needle may not be correct for the selected fabric, the needle may have been fitted too low, the fabric may not be properly guided or the bobbin case can be placed incorrectly.
